1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Everett Diedericks on April 18, 2005.

The application has been amended as follows:

In claims 14 and 27, please cancel "by volume".

2. The following is an examiner's statement of reasons for allowance: The instant claims are neither taught nor suggested by the prior art for reasons consistent with those given in the office action dated 9/17/04 and the remarks provided in applicants' response. In addition, applicants' amendments and the Examiner's amendment supra overcome all rejections under 35 USC 112. The Examiner agrees with applicants that support can be found, albeit implicitly, for the newly added "by volume" limitation for all of the claims with the exception of claims 14 and 27. However upon a review of the claim language, it does not appear that the rejection made in the previous office action was necessary. That is, in the absence of any other language, it is clear from the original language in claims 14 and 27 that the ratio is between the total number of methyl and phenyl atoms. Thus, as amended, the claims are clear and definite.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret G. Moore whose telephone number is 571-272-1090. The examiner can normally be reached on Monday to Wednesday and Friday, 10am to 4pm.
